

# Articulated tram 2000 | All dimensions in millimetres

← Front/direction of travel

■ No placements permitted in areas marked green!

■ From the front, no 3D elements may be placed over a space of 2,400 mm.

**PRINT FORMATS INCL. BLEED**  
Roof panels: 8100 x 420 mm

**3D elements**  
**3D elements may not extend more than 130 mm over the panel on top and bottom.**

Elements that protrude or extend beyond the contours have various negative aspects: washing brush wear, catching clothes during roof work and loss of quality during cleaning!

To minimise these issues, the edges are rounded during production! Excessively pointy or fine elements should be avoided.

Spacer sleeves of 35 mm must always be used.

**Moving Poster «Tram 2000»: 1360 x 1750 mm**

- Coverage film (Blue)
- Window film (Green)
- Rubber seals not coverable (Red)

**PROVISION OF PRINT DATA**

- Provide data 1:1 in Illustrator or InDesign > Format 1360 x 1750 mm
- Bleed on all sides 20 mm
- Image resolution 100dpi on final format
