VBZ **ZüriLinie**

Your message reaches a large target audience.

For adverts to have an impact, they've first got to be seen. That's easily achieved on VBZ trams and buses, where your message will reach more than 960'000 passengers every working day.

And in an environment close to where people actually make their purchases. In short, opting for a campaign on and in VBZ vehicles is a particularly promising advertising strategy.

Its extensive reach is just one good reason among many: from A for 'attention' through to Z for 'Zurich-wide', there are many reasons to pick VBZ. Talk to our skilled advisers about your needs; we'd be more than happy to help.

Top scores for reach and efficiency

The people of Zurich are ready to see your campaign.

Advertising goes down particularly well with affluent passengers aged 35 to 55+. There are lots of other good reasons for advertising on or in trams and buses (see on the right page).

Displaying your adverts within our vehicles means you benefit from the widespread acceptance enjoyed by VBZ. This important aspect is once again confirmed in the latest study on advertising awareness. Vehicle advertising achieves maximum acceptance, lending your presence greater recognition and credibility. We would be more than happy to provide survey results relevant to you – just ask us.
